Subject: report requested

Hi Christina,

Our IT staff has made the necessary programming changes to generate reports that will tell you which samples have been picked up by Suffolk County police department in a specified time frame and the results for those samples. The piece that is not yet complete is the establishment of a SFED (Secure File Electronic Deliverable) account that would allow us to send the report in a secure email. This function is handled centrally for all of DPH and could take a little more time.

In the interim, how would you like us to get this information to you We could (1) print & mail it, (2) send it via regular email, or (3) put it on CD and mail that. None of these is ideal but hopefully it will only be for a short time. Please let me know which you prefer.

Thanks, Julie Nassif
